Powiedzieć, że była niezwykłą osobą, to nic nie powiedzieć. Kontakt z Nią był zawsze inspirujący i wzbogacający, a podejście do zadań i zobowiązań – imponujące.

Jako wieloletni współpracownicy Pracowni, składamy wszystkim pracownikom PTP-U nasze kondolencje i wyrazy współczucia.

With great sadness, I received the message. Aleksandra was such a wonderful woman and a brilliant publisher. She had my utmost respect for her life and work. But she was also a true friend, and for that, I am very grateful to her. Given what was told us last year, one must sadly say that it is surely good for her to have found peace now. Nevertheless, the finality of death makes us very sad.

However, the theologian Dietrich Bonhoeffer once formulated these words, which I find very comforting:

The more beautiful and full the memory,
the harder the parting.
But gratitude transforms the memory into a silent joy.
One carries the past beautiful moments not as a thorn,
but as a precious gift within oneself.

Of course, it will take quite some time until this will be the case.

In deep sorrow,

Jürgen

When I read the letter, my heart ached. Our dear Alexandra is no longer with us, but she will remain in my memories forever. We have known each other for more than 25 years, from working with John Raven on the matrices, to working at BOA and of course almost every year at the ETPG conferences.

Please accept my sincere condolences and pass them on to her family.

Kind regards,

Dušica

Pamela Becker – Hogrefe (Great Britain)

I am so very sorry for your loss – and of course I echo all the kind words from our other ETPG members. One of my favorite memories is the launch of the IDS-2 in the spring of 2019 with the terrific “cake” photo Nadine sent to me of her and Alexander Grob – and then remember we presented on the IDS-2 at ISPA that summer in Basel? When we were booking the hotel there were several choices and I recall Aleksandra sent an email that “I agree with Pamela – the hotel without alcohol is not for us 😊” And then we had a really lovely dinner together after the presentation (with very good wine! Jürgen taught me well 😊) and it is such a good memory for me.

Please know she was admired by so many – and we are all thinking of her family, and the entire team.

Warmly,

Pam
